## EXPERT HOSPITAL-GRADE DISINFECTION AND SANITATION

Germ Hero partners with local businesses to uphold their disinfection and sanitary requirements to the highest standards.

### Regular Cleaning vs. Germ Hero

Organizations and businesses are under pressure to control germs that cause cross-contamination and facility acquired infections like Staph, MRSA, HIV-1, Coronavirus, and Hepatitis A. Unfortunately, standard disinfection methods are continuing to prove less effective, more timely, and costly.

Germ Hero delivers the most advanced technology to effectively and efficiently disinfect even the most complex facilities and hard-to-reach surfaces with electrostatic disinfection fogging and powerful broad-spectrum disinfecting agents.

EPA-Approved Hospital-Grade Expert Disinfection and Sanitizing Services.
